Ally Safety Presents

ALLY SAFETY TRAINING

Modern, Engaging, &
Entertaining

WHY ALLY SAFETY?

Hi, I'm Rachel Housman, the founder, spokesperson, Certified Safety Pro and Industrial Hygienist behind Ally Safety.

I believe that for safety training to be effective it needs to be engaging. That's why we work so hard to make sure our courses entertain as well as inform. We design each segment to show rather than tell, demonstrate rather describe, and replace zoning out for tuning in!

FULL-LENGTH TRAINING COURSES

Each of our full-length training courses is delivered in short video segments, followed by a brief quiz. This "microlearning" approach has been shown to increase learner retention!

- Short video segments can be watched all at once or over several days
- Employees learn from real-life job sites, demonstrations, and 3d animations,
- Training is modern, updated frequently, and created by active safety professionals

ALLY SAFETY TOOLBOX TALK MEMBERSHIP

Access our entire library of 120+ toolbox talk videos! These short, engaging videos save you time and effort while improving the quality of information!

- Studies have shown frequent toolbox talks can reduce injury rates
- 120+ short safety video topics
- New topics are added quarterly
- Can be sent over text, email, or inserted into SharePoint or LMS
- No need to come up with weekly safety topics!
- Fantastic production value
- Engaging video lessons
- Better information = better outcomes
