The Construction Safety App

SEAMLESS SAFETY TRACKING FOR YOUR COMPANY, PROJECTS, AND PEOPLE

Features

eMOD standardizes teams on construction safety best practices. Our user-friendly application empowers teams to practice job site safety efficiently and effectively.

eMOD tracks all of your safety data in one place.

Onboarding
Get your crew and trade partners up to speed on expectations for safety and job sites. Our onboarding leverages your own custom video with an optional quiz.

Incident Reports
Nobody likes incidents. But when they come up it's important to use consistent and best practices for documenting what happened.

COVID Protocols
Two minute check-ins for an entire crew using OSHA, CDC, state, or client required surveys. Positive case? Contact trace that individual with a push of the button.

Toolbox Talks
Create and deliver custom toolbox talks for your crews. eMOD tracks who attended each training.

Crew Profiles
Track certifications, trainings, and Silica Exposure of all your crew members.

Daily Safety Plans
Build safety plans in 3-5 minutes with our easy to use application that suggests safe plans tailored to your work. Superintendents are prompted for review and can approve/decline with feedback from anywhere.

Pre-mobilization Safety Plans
Required prior to mobilization, trade partners identify and document their safety protocols so they're ready to safely hit the ground running on day one.

Safety Audits
Custom built safety audits for your jobs. Track frequency and time to resolve observations.

Benefits

eMOD enables companies to track safety data all in one place at the company, project, and individual user level. Our integrated platform connects the C-suite to what's happening in the field through a shared KPI dashboard. With eMOD, management teams can monitor activity and target corrective efforts where they're needed most.

Improve Safety
eMOD is built on industry best safety practices. Customers share that eMOD enables whole teams to develop daily safety plans- not just foremen. Send people home safe and let your insurance savings drop to your bottom line.

Efficient
eMOD users report completing daily safety plans in only 3-5 min, saving key personnel 15-30 min daily. Other eMOD tools streamline and standardize audits, speed delivery of toolbox talks, and expedite communication.

Work From Anywhere
Whether you're a Superintendent or VP of Field Operations, it's a challenge to stay on top of safety on the job site. eMOD's workflow management alerts you when you need to take action whether you're on the job or working at Starbucks.

eMOD Dashboard
Team members across the organization get access to insightful KPIs, so they know exactly how their teams are performing on the job.

> **"Game Changer! eMOD makes it easy to track my crew compliance, no matter what job they are working on!"**
> Dan Gudmunson
> ACCO

Getting Started

Getting started with new tools can be a challenge. Our team is here to ensure success during and after the onboarding phase.

Seamless Setup
Getting up and running with eMOD is easy! Our onboarding team has you covered with mass-upload tools to minimize manual entry.

Technology Your Team Will Love
eMOD is made for the field by the field so you can be sure it will be easy to learn and use, regardless of technical expertise. Spanish language support is also forthcoming.
